The program really doesn't do that much, but what it does it does well You can mix together any two files or set them up to cross-fade so that the party really does keep on jumping.. com FREE DELIVERY possible on eligible purchases UltraMixer is a DJ-Mixing-Software which enables you to mix digital music in various formats such as MP3, WMA, OGG, WAV or CDs in real time.. You also have the option to choose between manually fading the files and pre-programming them to run automatically, plus you can add a microphone to the mix if you want to drop some lyrical bombs.. You'll certainly need to practice with it as the default options mean that if you mistakenly skip a track or otherwise get out of order, you may need to go hunting through file menus again.. These come with several features such as wet grinding, chutney grinding, juicing, and dry grinding.. Instead it's a perfectly serviceable option for those who want to liven up a party or simply have fun playing about with music.. Ultra
